

McWilliams School of Biomedical Informatics

Documentation Form: BMI 6002 – Directed Study in Biomedical Informatics

Student Name: _____

Year & Term: _____ Credit Hours (1-9): _____

Grading Policy: Pass/Fail _____ *Letter Grade: _____

Is this Directed Study being substituted for a standard BMI course in your degree plan?

Yes No If yes, enter the course number and name here:

Course #	Course Name
----------	-------------

Please attach a Study Proposal to this form. A typical proposal may address the following:

- Study title
- Institution or organization where study will be conducted
- Study instructor name
- Project duration
- Project description
- Behavioral learning objectives
- Study evaluation criteria
- Outcome of the project

****If letter grade is selected as the grade policy, a grading rubric from the faculty member is required. The rubric must describe what will constitute an A, B, C, or F.***

Student Name - Printed	Signature	Date
------------------------	-----------	------

Study Instructor Name - Printed	Signature	Date
---------------------------------	-----------	------

Students seeking permission for Directed Study must have their completed form and proposal submitted at the time of the request for permission to enroll. Students will not be given permission to enroll in MyUTH until both documents are on file with the SBMI Office of Academic Affairs.
