UTHealth Houston
McWilliams School of Biomedical Informatics

MD/MS –Baylor College of Medicine
5-Year Integrated Schedule (Houston and Temple/Austin Campuses)

The following is an integrated schedule for students pursuing the 5-Year MD/MS program between Baylor College of Medicine and UTHealth Houston School of Biomedical Informatics. While this guide is provided as an academic planning tool, students are expected to discuss academic planning with their advising team.

MD/MS students must complete all partner program degree requirements and apply for graduation from the partner institution to be eligible for MS degree conferral. In most cases, degree conferral for both programs must occur in the same semester. Students will be required to provide proof that a graduation application has been submitted to the partner institution during the MS graduation application process. Please contact your campus or program coordinator if you need more information on enrollment requirements and degree conferral.

MD/MS –Baylor College of Medicine 5-Year Integrated Schedule				
Year	**Program**	**Fall**	**Spring**	**Summer**
1	MD	**MD Program Start** - Enrolled	- Enrolled	
	MS
